A seamless approach to *luxury* home building

Now trading as HLP Developments, we are a luxury residential building and developments company delivering high-end homes, residential developments, and turnkey projects across South Africa.

Established in 2009, HLP Developments has built its reputation on a clear principle: exceptional residential projects require disciplined process, experienced oversight, and close collaboration between client, architect, designer, and contractor. We bring structure and clarity to complex building projects, managing each stage with technical precision, transparent communication, and a consistent standard of workmanship from planning through to final handover.

— WHAT WE STAND FOR —

Three principles, *held* consistently

Our values are more than statements of intent. They guide how we build our team, structure our decisions, conduct our work, and evaluate the success of every project we deliver. They create a clear standard for accountability, consistency, and excellence, ensuring that every client experience reflects the level of professionalism, care, and commitment expected from HLP Developments.

01

Reputation

Our reputation has been built through consistent delivery, long-standing professional relationships, and successfully completed residential projects across South Africa. Since 2009, HLP Developments has earned trust through performance, accountability, and the standard of work delivered on site. We understand that reputation is built over time, project by project, and protected through the decisions made every day.

02

Quality

Quality is upheld through disciplined construction standards, technical oversight, and attention to detail at every stage of the building process. From structural work, waterproofing, and services coordination to final finishes and handover, we apply the same level of care to the elements behind the walls as we do to the details on display.

03

Commitment

We approach every project with a clear sense of responsibility to the client, the design intent, and the long-term performance of the home. Our commitment is reflected in how we communicate, how we manage challenges, and how we follow through on the details that shape the overall building experience.

— Built by professionals who *care* about how homes come together —

We're here to guide the process *from start to finish*

HLP Developments offers a fully managed building experience from initial planning through to final handover. Our work combines construction expertise, rigorous project management, and active collaboration with architects and designers, ensuring every home is delivered to specification, on programme, and to the highest standard of finish.

01

Luxury Residential

Bespoke, high-end homes built from the ground up. From initial concept through to final handover, we manage the full construction journey delivering homes that reflect the client's vision and lifestyle.

02

Developments

Multi-unit residential developments managed from concept through to completion. We handle feasibility, planning, construction, and handover with a focus on long-term value, design integrity, and return on investment.

03

Design & Build

A fully integrated service for clients who want a single point of accountability from concept development to final handover. We coordinate architecture, interior design, and construction under one roof, removing friction and keeping timelines tight.

04

Renovations & Extensions

For established high-end homes, we manage carefully considered alterations and extensions with respect for the original architecture, structural requirements, and intended outcome. Each project is approached with the planning, coordination, and standard of finish expected of a premium residential build.

05

Project Management

Complete project oversight from planning to completion. We manage timelines, budgets, subcontractors, and quality control, ensuring the client's interests are protected at every stage and that all project elements remain coordinated, accountable, and aligned with the required outcome.

06

Interior Architecture

Thoughtfully designed interiors, finishes, and spatial layouts that bring each home together beautifully. We shape flow, light, materiality, and detail working alongside external designers or leading the process ourselves.

Fancourt *House*

Set within Fancourt, this house is a bespoke 1,544 m² residence designed around family living, entertaining and its exceptional setting. Positioned on a ±6,827 m² stand, the home captures panoramic views across the Montagu and The Links golf courses towards the Outeniqua Mountains.

Contemporary architecture meets traditional gabled forms, with soaring vaulted spaces, expansive glazing and dramatic architectural volumes. Warm timber, natural stone, fireplaces and bespoke detailing bring balance and intimacy to the home's considerable scale.

With seamless indoor-outdoor living, a pool, entertainment spaces, bespoke bar, wine room and private cinema, Fancourt House is a highly personalised home defined by craftsmanship, lifestyle and place.

Turnkey

Steyn City *House*

Steyn City House is a 689 m² contemporary residence situated alongside the green belt in Steyn City. Designed around light, landscape and generous family living, the home combines expansive glazing and exposed concrete with warm timber, dark architectural detailing and carefully integrated lighting. Landscaped courtyards, dramatic floating staircases, luxury bedroom suites and seamless connections between the living areas, pool and outdoor spaces create a home that is both striking and highly liveable. Built by HLP Developments, Steyn City House showcases the precision, coordination and attention to detail required to deliver contemporary residential architecture at this level.

— A WORD FROM A PARTNER —

Louis de Bruyn from HLP is a pleasure to work with and no task is too big. He has the ability to change anyone's mood positively with his optimism and friendly personality. The team has unmatched contacts in the industry and great communication skills.

Antoinette Horngren
JK Design Architects

— A WORD FROM A CLIENT —

"HLP built a house for me in 2014. 11 years later the house is still perfect! They have a great team of professionals, brick layers, plasterers, painters, electrical and plumbing that use the best materials and put a long lasting masterpiece together."

John Lilley
